

EZYpole Concrete and Kelly Blocks

EZYpole concrete blocks offer a sturdy foundation for our poles when a permanent footing is not desirable. These blocks are ideal for temporary installations such as lighting, CCTV and time-lapse installations – and can be relocated at any time.

Our concrete blocks are engineered to support all our poles and their corresponding load capacities, and we can provide blocks to suit any particular wind region.

| Specifications | | | | | | |
|---------------------|---|--------------|--------------|--------------|--------------|--------------|
| Model | CB-LD-0.9T | CB-MD-1.8T | CB-HD-2.4T | CB-XHD-3.8T | CB-TL-1.8T | CB-CUST.X.XT |
| Standard P.C.D. | 250 | 250 | 300 | 300 | 250 | 250-300 |
| Weight | 900kg | 1800kg | 2400kg | 3800kg | 1800kg | Custom |
| Dimesnions (LxWxH) | 1x0.6x0.6m | 1.1x1.1x0.6m | 1.1x1.1x0.8m | 1.3x1.3x0.9m | 1.3x1.3x0.4m | Custom |
| Forklift Hooks | No | Yes | Yes | Yes | Yes | Optional |
| Anchors | 1x (2.5T) | 2x (5T) | 2x (5T) | 2x (5T) | 2x (5T) | Optional |
